

Mozibul Haque

Bangladesh is the 2nd largest apparel manufacturing country in the world and I am one of the pioneer technical expert, architect and entrepreneur in the apparel and textile industrial revolution which started back in 1986. I am having 35 years of experience in researching product development and production from fiber to fashion for international buyers. I am specialized for creative design, various surface decoration and overall textile and apparel manufacturing.

Currently I am residing in Canada and I wish to be an integral part of contribution towards the Canadian economy focusing on assisting fashion entrepreneurs with their business needs.
